

MasterCutTM NATURAL STONE

Stony Point[®]

2024 Collection Guide

MasterCutNaturalStone.com

*Beauty
in TruthTM*

MasterCut is real stone, and as such brings the stately beauty of nature to your home and buildings. Unlike artificial stone (molded and tinted concrete), weathering enhances the look of MasterCut Natural Stone—even chipping won’t detract from its beauty. Want to build an addition in five years? The Mid-Atlantic’s largest deposit of fieldstone will yield a perfect match.

Stone Glossary & Nomenclature

Veneer - Decorative stone applied to the surface of vertical walls. The term refers to the material applied as well as to the process of covering the wall. Many of our veneer stones are available in varying bed depths (thickness) as described below:

Thin Veneer - Stone veneer with a bed depth (thickness) ranging 1" to 1 1/2". Our thin veneer meets the weight specifications of the Uniform Building Code (15 lbs./Sq. Ft. or less).

Medium Veneer - Stone veneer with a bed depth (thickness) ranging from 2" to 4".

Full-Bed Veneer - Stone veneer with a bed depth (thickness) ranging from 3" to 5". Full-bed veneer typically requires an additional footing to support the weight of the stone facade.

Bed Face - A face on a stone formed by a natural seam in the rock along the planes of stratification.

Split Face - A face on a stone running perpendicular to the bed face. This face usually reveals the stratification of the rock.

Facade - The finished face of a vertical wall.

Bed Depth (Thickness) - The dimension of a stone, when laid as a facade, from the visible face of the stone to the opposing parallel face (I.E.: front to back).

Rise (Height) - The vertical dimension of a stone when laid as a facade.

Length - The horizontal dimension of a stone when laid as a facade.

Visible Face - The surface of stone that is easily visible when looking at a completed veneer installation.

Mosaic - Stone that is generally irregular in shape with no definite pattern.

Random Ashlar - Stone that has been manually cut, or dressed, into roughly square and/or rectangular shapes.

Ledgestone (or Ledge) - Stone that is typically greater in length than in rise (height).

Mosaics

Available Colors

Natural Mosaic

1 1/4" Average Bed Depth (Thickness)
Face Sizes Range From 6" x 6" to 14" x 14"
Sawed Back
Matching Corners Available

Midnight Mosaic

1 1/4" Average Bed Depth (Thickness)
Face Sizes Range From 6" x 6" to 14" x 14"
Sawed Back
Matching Corners Available

Packaging

Flats ship on stackable square pallet containing 100 or 20 square feet (Odd quantities available by special order)
Corners ship in crate containing 20/60 or 100 linear feet (Odd quantities available by special order)

Custom blends in full bed or thin veneer are available by special order.

Williams Ledge

Available Colors

Williams Ledge

1 1/4" Average Bed Depth (Thickness)
Face Sizes Range From 6" x 6" to 14" x 14"
Sawed Back
Matching Corners Available

Packaging

Flats ship on stackable square pallet containing 100 or 20 square feet (Odd quantities available by special order)
Corners ship in crate containing 20/60 or 100 linear feet (Odd quantities available by special order)

Custom blends in full bed or thin veneer are available by special order.

Williams Ledge

Ledges

Available Colors

Natural Ledge

1 1/4" Average Bed Depth (Thickness)
Face Sizes Range From 6" x 5" to 6" x 18"
Sawed Back
Matching Corners Available

Autumn Ledge

1 1/4" Average Bed Depth (Thickness)
Face Sizes Range From 6" x 5" to 6" x 18"
Sawed Back
Matching Corners Available

Harvest Ledge

1 1/4" Average Bed Depth (Thickness)
Face Sizes Range From 6" x 5" to 6" x 18"
Sawed Back
Matching Corners Available

Packaging

Flats ship on stackable square pallet containing 100 or 20 square feet (Odd quantities available by special order)
Corners ship in crate containing 20/60 or 100 linear feet (Odd quantities available by special order)

Custom blends in full bed or thin veneer are available by special order.
